

Chambers nom de plume of Bradford Ashford. Anyway, we...thank you, Madam President and members. Just briefly, I would like to thank Senator Schimek and the Government Committee for the help that they gave me in the community corrections area. They did a lot of work on that, Neal Erickson did as well, and that was very much appreciated. I appreciate Senator Witek for agreeing to this amendment, and thank Senator Abboud for his hard work and Senator Hohenstein for his hard work on this bill. I think we've come a long ways, and my last parting remark would be that I hope my good friend of many years, the Attorney General, will look positively upon this effort by the Legislature, and will go out into the state and be positive about it, because I can tell you that good positive teamwork on these issues is the only way we are ever going to come to a good solid conclusion. With that, Madam President, I would urge the adoption of the amendment.
